Hamilton-Wenham Regional School District does not discriminate in its programs, activities or employment practices based on race, color, national origin, age, religion, gender, gender identity, sexual orientation or disability.

The Hamilton-Wenham Integrated Preschool

The Hamilton-Wenham Integrated Preschool provides a safe and nurturing environment that promotes the physical, social, emotional, language and pre-academic development of children ages three and four years old. Our goal is to prepare our preschool students for Kindergarten in one of our three Hamilton-Wenham RSD schools or area private Kindergarten programs.

Creating a passion for
Lifelong Learning

Our Program

Our Program is child-centered and incorporates developmentally appropriate activities and interactions across domains. We balance active and quiet experiences for learning and play, both indoors and outdoors. These experiences are designed to foster the development of the whole child. Expressive arts, including music, are a vital part of each week.

Our Model

Our model provides inclusion of all children, those with special needs and those who are typically developing, with a well-structured setting and a rich, prekindergarten curriculum. Integration offers an ideal opportunity for children to work and play together, explore social relationships and develop self-esteem. Early literacy and mathematic skills are enhanced with a multi-sensory and thematic curriculum.

If at anytime you are concerned that your child may have a developmental delay, call Maureen Smith at 978-626-0909

Parents as Partners

Parents are partners in their child's education. There are opportunities to volunteer in the classroom and behind the scenes. Preschool families are included in the Friends of Winthrop parent advisory group and many of the school-wide programs for families that occur throughout the year such as Curriculum Night in the fall and Open House in the spring.

Our Home

Located in classrooms at the Winthrop Elementary School, classes are staffed by early childhood special education teachers, therapists and teaching assistants to provide a low adult to child ratio.
